EDUCATION

B.Tech – IT

Specialisation - Software and Mobile Application Development

Minor - UX Design

MIT ADT University

2023–2027 | CGPA: 7.93

HSC (12th)

SM Choksey Jr. College

2021–2023 | 73.6%

ICSE (10th)

The Bishop's School Camp

2009–2021 | 93.6%

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Spring Boot, REST APIs, Spring MVC, Kafka

Database: MySQL, Firebase, PostgreSQL

DevOps: Docker, Git, Postman, Linux

Languages: JS, Java, TypeScript, Python

Concepts: RBAC, Design Patterns, UI/UX, Workflow Auto.

LANGUAGES KNOWN

- English
- Hindi
- Gujarati
- Marathi
- German (A1)

ABOUT ME

Final year IT student at MIT ADT University specialising in Software and Mobile Application Development. I am very passionate about full-stack development - Java, Spring Boot, React, TypeScript, Node.js, and ReactNative. Proven track record building production-grade projects with real architecture decisions. Looking to contribute to an engineering team where I can ship meaningful, well-structured products.

INTERNSHIP EXPERIENCE

Frontend Dev Intern · RAFAI Technologies Pvt. Ltd.

Jun – Aug 2025

Project: Hidden Bites – Restaurant Discovery Platform

- Built reusable React/TypeScript component library, improving UI consistency and reducing feature delivery time.
- Prioritised feature requests alongside the dev team, translating client needs into well-scoped engineering tasks.
- Led frontend planning sessions; resolved layout inconsistencies that improved mobile responsiveness.

PROJECTS

FlowForge · Workflow Automation SaaS

React · TypeScript · Node.js · Redis · JWT · Docker

- Built a graph-based automation engine with dynamic multi-step pipelines, cutting workflow setup time by ~40%.
- Engineered JWT auth & REST APIs in Node.js with sub-100ms response times; containerised with Docker for environment parity.
- Delivered 15+ reusable TypeScript components following scalable UI architecture patterns.

HelpDesk · Enterprise Ticket Management System

Java · SpringBoot · Kafka · Redis · PostgreSQL · Render · Swagger/OpenAPI

- Built and deployed a multi-tenant HelpDesk backend using Spring Boot, PostgreSQL and Docker with RESTful APIs for organisations, users, tickets and comments.
- Designed a normalised relational database with entity relationships, JPA/Hibernate ORM, validation, global exception handling, and layered architecture (Controller → Service → Repository).
- Published interactive API documentation using Swagger/OpenAPI and deployed the application on Render, enabling cloud-based endpoint testing through Postman.

Elevare · Career Guidance Platform

React · Node.js · MySQL · Python · AI Chatbot · FastAPI

- Built onboarding flows, user profiles, and MySQL layer; integrated AI chatbot with context-aware prompt routing.
- Led design reviews, resolving 8+ usability issues identified in peer testing.

CERTIFICATIONS

Backend & APIs

- Developing Back-End Apps with Node.js & Express – IBM / Coursera · Feb 2026
- Node.js & MongoDB: Developing Back-end Database Applications – IBM / Coursera · Apr 2026
- Backend Development and API Creation – Packt / Coursera · Feb 2026

Testing & Automation

- Selenium Automation and Testing Frameworks – Packt / Coursera · Apr 2026
- Introduction to Selenium – Coursera · Feb 2026
- Create Your First Automation Script Using Selenium & Java – Coursera · Feb 2026

Tools & Design

- Git Training – EduPyramids, SINE, IIT Bombay · Score: 96.67% · Apr 2026
- Create a High-Fidelity Prototype with Figma – Coursera · Apr 2026
- Create a Product Design Brainstorming with Miro – Coursera · Apr 2026
